

Northland Pines School District

*Northland Pines School District 1:1 Chromebook Program
2024/25 School Year*

The Northland Pines School District is dedicated to creating a collaborative learning environment for all learners. Through a 1:1 learning environment, students and teachers will be able to implement transformative uses of technology and enhance student engagement with content. The goal remains to promote self-directed, lifelong learners.

Our students will transition from consumers of information to creative producers and owners of knowledge. To prepare them, our team will establish collaborative professional learning communities based on integrative professional development for teachers. This program enhances classroom environments by providing high-quality instruction, assessment and learning through the integration of technology and curriculum.

Technology immersion enables teachers to continue to be a vital role by transforming the teacher from a director of learning to a facilitator of learning. The Board of Education, district staff and community members all play a key role in the development of effective and high quality educational experiences.

10. CHROMEBOOK FAQ's

1. RECEIVING YOUR Chromebook

Chromebooks will be distributed within the first week of each school year. Parents/Guardians and students MUST sign and return the NPSD Chromebook Agreement document before the Chromebook can be issued to their child. This Chromebook Policy Handbook outlines the procedures and policies for families to protect the Chromebook investment for the Northland Pines School District. Chromebooks will be collected at the end of each school year and students will retain their original Chromebook each year while enrolled at NPHS or NPMS.

ALL students will be required to have a chromebook or approved device at school everyday.

Device Insurance

Parents and students may elect to purchase optional device insurance through the district at a cost of \$20.00 per device per school year. The fee may be reduced to \$10.00 for families who qualify for free and reduced lunch and who have appropriately notified the district of this eligibility. Students who do not purchase insurance may be subject to fines for damage deemed beyond normal wear and tear on the device. Insurance is meant to cover incidentals and accidental damage. Negligence or intentional damages are not covered and the student will be charged for repairs.

Examples of Damage with approximate repair costs:

- Replacement Charger - \$15.00
- Replacement Screen - \$30.00
- Replacement Keyboard - \$35.00
- Full Device Replacement - \$200.00

Families may elect to have their student bring their own qualifying device. These families may elect to purchase device insurance as well. This insurance would cover a district-owned device should a student's personal device be unavailable for any reason. The purchase of insurance would not cover damages to a student's personal device. Students bringing their own device may have limited access to technology support for their device. Students will get support on all items dealing with Google, Schoology, or any products supplied by the district. Parents and students will need to sign the form stating that this is their intention.

Qualifying Devices

Any Chromebook (running Chrome operating system)

Macbook Pro

Macbook Air

Pre Approved by Technology Director

These devices are selected based on a criteria of battery life, compatibility with Google, and use in an educational setting. If you have any questions please contact Director of Technology.

Students who have their own device may check out a loaner device if they have forgotten to bring or charge their device. Students will be required to return this device at the end of the day if they have not paid the optional insurance. [REDACTED]
